

First Aid for the Elderly – 8 hours

This First Aid for the Elderly course is designed specially to enable caregivers of the elderly to respond promptly and effectively if someone they are caring for is injured or taken ill.

Our first aid trainers all have experienced in accident and emergency situations in addition to their skills as first aid instructors. By including real life situations as part of our training we can enhance the learning experience and make our courses much more relevant and interesting.

If you are not sure which first aid course you need or would like help assessing your needs, please call **(6258 2801)** or email us (training@sgcaregiver.org) with your enquiry
